HOW TO PLAY

Four Card Poker is a game that features three ways to play; against the dealer, against the pay table or both. Players use their best four cards out of the 5 dealt and the dealer uses the best four out of six cards. Wagers must be made in increments of \$5.

RANKING OF HANDS

4 of a Kind / Straight Flush / 3 of a Kind / Flush / Straight / 2 Pair / Pair / High Card.

Note: If a hand does not contain a pair or better the hand that contains the highest ranking card(s) wins. Ace is high except in 4-3-2-A sequence.

WAGERS

Ante/Play Bet | Playing against the Dealer

The Ante is a bet that the player's 4-card hand will beat the dealer's 4-card hand. If once the player looks at their hand they believe it can beat the dealer's hand, a second bet called the Play Bet is made. The Play Bet must be 1 to 3 times the Ante. The Ante and Play each are paid 1 to 1 when they win. The player wins ties.

Automatic Bonus

Players who place an Ante and Play wager win an automatic bonus payout on the Ante wager for the following premium hands. Automatic bonuses are paid even if the dealer has a better four card hand.

Four of a Kind	25 to 1
Straight Flush	20 to 1
Three of a Kind	2 to 1

Aces Up | Playing against the Pay Table
