HOW TO PLAY

The Multi Link Progressive is a \$5 side wager that joins Mississippi Stud Poker, Let it Ride, Three Card Poker, Four Card Poker and Ultimate Texas Hold'em together for an exciting progressive jackpot opportunity.

Designated games are linked together with a common jackpot for three possible metered amounts:

The Mega Jackpot which is a Five Card Royal Flush and pays 100% of the Mega jackpot

The Major Jackpot which is a Straight Flush and pays 100% of the Major jackpot

The Minor Jackpot which is a Four of a Kind and pays 100% of the Minor Jackpot

Four other hands qualify for a bonus payout not on the meter:

Full House pays \$250

Flush pays \$200

Straight pays \$150

Three of a Kind pays \$50

The bet considers the best possible hand among the player's cards and the community cards dealt. Progressive wagers are placed after the game's regular wagers have been made and prior to any cards being dealt. Progressive wagers are placed on the sensor in front of the player's betting position and the sensor will light up indicating the wager has been accepted.

Any player that places a progressive wager also qualifies to win an Envy Bonus payout if another player at the table who has placed a progressive wager wins the Mega or Major Progressive Jackpot. If a player receives a Royal Flush and wins the Mega Jackpot, all others at the table who have placed a progressive wager shall win an Envy Bonus of \$5,000. If a player receives a Straight Flush and wins the Major Jackpot, all others at the table who have placed a progressive wager shall win an Envy Bonus of \$1,500. An Envy Bonus is not paid out if a player does not win the Mega or Major jackpot and is not paid to the winner of the Mega or Major jackpot.
